About Peninsula Clean Energy

Peninsula Clean Energy is a public, locally-controlled electricity provider that gives all PG&E electric customers (residential, commercial, and municipal) in San Mateo County the choice of having 50% to 100% of their electricity supplied from clean, renewable sources at competitive rates. The Peninsula Clean Energy Authority, formed in March 2016, is a joint powers authority made up of the County of San Mateo and the 20 cities in the County. This joint powers authority was formed to provide the residents and businesses in San Mateo County with a cleaner and greener choice in where their energy is sourced.
