

Congratulations—you are now buying 100% renewable energy from Peninsula Clean Energy's ECO100 program.

Peninsula Clean Energy (PCE) is now San Mateo County's official electricity provider offering cleaner electricity at low rates. You are receiving 100% renewable energy, from sources including wind and solar power. Peninsula Clean Energy's ECO100 power supply has more renewable energy than PG&E's power supply, and zero greenhouse gas emissions. But with the same reliable service!

Your Peninsula Clean Energy charges will appear on your PG&E bill, and you will receive a credit from PG&E on the bill, since you are no longer purchasing its power. We explain below how to better understand your bill.

You are a PCE ECO100 customer! Here's how to calculate your bill:

Having trouble with the calculation? Contact our helpful call center representatives at 1 (866) 966-0110 during regular business hours, or watch the short instructional video on our website at peninsulacleanenergy.com/residents.
