Motion passed unanimously (Absent: Fullerton, Ruigomez)

SPECIAL AGENDA

1. Discuss and Make Recommendation to the Board of Directors on PG&E Nuclear Allocation (Action)

Desiree Thayer, *Chair*, directed attendees to the Memo and presentation slides in the Agenda Packet. Jan Pepper, *CEO*, reviewed slides that had been presented to the Executive Committee on May 11, 2020, which included background information on PG&E's allocation of GHG-free resources (large hydro and nuclear) to LSEs (Load Serving Entities) in PG&E's territory. Jan reviewed load forecasts based on the impact of COVID-19, the reduction in expected allocation volumes, and Peninsula Clean Energy's (PCE) GHG-free and Renewable energy targets.

KJ Janowski, *Director of Marketing and Community Affairs*, reviewed results from a market research survey that showed most respondents preferred a power mix without nuclear. Jan outlined a staff recommendation to accept the PG&E hydro allocation but not accept the PG&E nuclear allocation. Committee members discussed the market research response rate, the reduction in expected allocation volumes, the decreased load forecast, and PCE's procurement status.
