Leadership Awards and Buildings Directory!

Peninsula Clean Energy invites designers, builders, developers and owners of all-electric residential and commercial buildings to submit their projects to the Peninsula Clean Energy All-Electric Leadership Awards and Buildings Directory.

The directory and award program represents leadership and innovation in all-electric buildings across San Mateo County including completed all-electric buildings, all-electric buildings in design or construction, and buildings that may currently have natural gas systems but demonstrate a significant transition away from natural gas and have a stated goal or plans in process for full electrification.

Submitted projects will be reviewed by Peninsula Clean Energy's building experts and added to the interactive directory where users can search and sort based on factors such as location, building size and building type.

Projects may also choose to apply for the All-Electric Leadership Awards Program! Projects that choose to be included in the awards program will undergo a review process facilitated by a selection panel of state and regional building design and electrification experts. Each application will be scored and reviewed based on demonstration of leadership, innovation, building energy impact and quality of the application.

Projects wishing to be considered for the All-Electric Leadership Awards must enter projects by Jan. 15, 2021 to be considered in the 2021 Awards Program. More about the awards program on the next page.

\$3,000 prize for top commercial entry in each category

\$1,000 prize for top residential award in each category

NOTE: Buildings are accepted to the directory on an ongoing basis but to be included in the 2021 Awards Program, your project must be submitted by **Jan. 15, 2021.**

Interested in submitting for the Awards Program or Directory? Fill out the online form here:

Peninsula Clean Energy All-Electric Building Leadership Awards

To honor early adoption of all-electric building innovation, leaders working on projects located in San Mateo County can submit for a new recognition award. The Peninsula Clean Energy All-Electric Leadership Awards showcase the buildings that are driving this standard for the built environment in both residential and commercial sectors. **Award categories include:**

All-Electric Leader:

Spotlights a residential and a commercial project that demonstrate leadership by fully electrifying all buildings loads. Submitted projects must either be in operation with 100% of all energy loads electrified or the submitter must demonstrate that full electrification is in the planning, design, or construction phase. Projects may be commercial or residential and may include new construction or renovated public or private buildings located in San Mateo County. \$3,000 prize for top commercial and \$1,000 for top residential projects.

All-Electric Emerging Leader:

Spotlights a residential and a commercial project that demonstrate major strides towards full electrification. Eligible projects may have natural gas but demonstrate a significant transition away from gas and have a stated goal or plans in process for full electrification. Projects may be retrofits with plans to fully electrify all loads over time. They may not be new construction unless the submitter can demonstrate that all-electric is not yet feasible. Projects may be renovated or new construction (if applicable) public or private buildings and must be located in San Mateo County. \$3,000 prize for top commercial and \$1,000 for top residential projects.

RESIDENTIAL PROJECTS:

Residential projects are defined as new construction or renovated structures that utilize/d the residential energy code.

COMMERCIAL PROJECTS:

Commercial projects are defined as new construction or renovated structures that utilize/d the non-residential energy code.

Buildings Directory

Entry into the awards program is not required for projects submitting to the directory. If you only want your building to be counted in the directory and not considered for the awards program, select “No, just applying to be included in the All Electric Buildings Directory” as shown here:

4. Applying for award?*

- Yes, I am applying for the All-Electric Leader award and the Directory
- Yes, I am applying for the All-Electric Emerging Leader award and the Directory
- No, just applying to be included in the All Electric Buildings Directory

For a description of the awards, please visit PenCleanEnergy.com/all-electric.

Submit your project to Peninsula Clean Energy for inclusion in the All-Electric Buildings Directory. The form takes just a few minutes to complete. Click here to get started: **PenCleanEnergy.com/all-electric**
