

**PENINSULA CLEAN ENERGY AUTHORITY  
Board of Directors Meeting  
Public Comment**

Friday, September 24, 2021 12:26 p.m.

Dear Chair DeGolia, Directors (Bcc), and Staff,

As you discuss important topics about current and future efforts at PCE during the retreat tomorrow, please consider the attached comments and recommendations from local environmental leaders. The urgency of the climate crisis has accelerated a great deal. We are asking for your consideration to step up successful programs to meet this moment.

I must commend you all for the tremendous progress and outstanding leadership of PCE on clean energy and local climate programs. PCE has become a model CCA for all of California and beyond.

Warm regards,  
Diane Bailey

Diane Bailey (she/her), Climate Change Professional (CC-P) | Executive Director
