

Calculate your ECOplus savings

Peninsula Clean Energy is San Mateo County’s official electricity provider offering cleaner electricity at lower rates. Peninsula Clean Energy’s power supply has more renewable energy at lower cost than PG&E’s.

Your Peninsula Clean Energy charge for generating your electricity appears on your PG&E bill. You also receive a credit from PG&E on your bill since you are no longer purchasing their electricity. So you will pay 5% less for the generation of power, which is one component of your bill. PG&E charges for delivery of the power through their lines, and other items. Use this worksheet to total the charges and tally your savings.

You are an ECOplus customer! Here’s how to calculate your savings:

| | | |
|---------------|--|---|
| Step 1 | Enter “Generation Credit” usually found on page 3 of your bill. This is a credit from PG&E since you are not buying their energy. | CREDIT FROM PG&E <input type="text"/> |
| Step 2 | Enter additional charges from PG&E: Power Charge Indifference Adjustment and Franchise Fee Surcharge. They cover energy purchased by PG&E on your behalf before you joined Peninsula Clean Energy. | PCIA <input type="text"/> + FRANCHISE FEE <input type="text"/> |
| Step 3 | Enter charges for Peninsula Clean Energy’s greener power, called “Net Charges” usually on page 4. Other fees found here, which may include an Energy Commission Surcharge and sometimes a Local Utility Users Tax, are paid by all PG&E customers. | + NET CHARGES <input type="text"/> |
| Step 4 | Add the amount of the 3 boxes in Steps 2 and 3. | TOTAL CHARGES <input type="text"/> |
| Step 5 | Subtract the amount in Step 4 from the PG&E credit in Step 1 to see your savings. A typical ECOplus customer will save a few dollars per month. How do your savings stack up? | TOTAL SAVINGS <input type="text"/> |

Having trouble with the calculation? Contact our helpful call center representatives at 1 (866) 966-0110 Monday-Friday, 8 a.m. - 5 p.m., or watch the short video on our website at PenCleanEnergy.com/residents.
