

2022 PROSPECTIVE PRODUCT CONTENT LABEL ¹

ECO100 matches 100% of your electricity usage. In 2022, ECO100 will be made up of the following new renewable resources averaged annually.

If you are using this product to charge an electric vehicle (EV), the renewable generation that is used for EV charging will generate Low Carbon Fuel Standard (LCFS) credits. This generation supports compliance with state programs rather than voluntarily going above and beyond what is required by law or statewide emissions regulations. Please see <https://www.green-e.org/news/062019> for more details.

Green-e® Energy Certified New ² Renewables in ECO100 2022		Generation Location
-Biomass	%	
-Geothermal	%	
-Low impact hydroelectric ³	%	
-Solar	50%	CA
-Wind	50%	CA
Total Green-e® Energy Certified New Renewables	100%	CA

1. These figures reflect the renewables that we have contracted to provide. Actual figures may vary according to resource availability. We will annually report to you before August 1 of next year in the form of a Historical Product Content Label the actual resource mix of the electricity you purchased.

2. New Renewables come from generation facilities that first began commercial operation within the past 15 years.

3. Eligible hydroelectric facilities are defined in the Green-e® Renewable Energy Standard for Canada and the United States (<http://www.green-e.org/standard>) and include facilities certified by the Low Impact Hydropower Institute (LIHI) (www.lowimpacthydro.org) or EcoLogo (www.ecologo.org); and facilities comprised of a turbine in a pipeline or a turbine in an irrigation canal.

For comparison, the current average mix of resources supplying PG&E includes: Coal (0%), Nuclear (42.8%), Oil (0%), Natural Gas (16.4%), Hydroelectric (10.1%), Eligible Renewable (30.6%), and Other (0%). This resource mix was prepared in accordance with California Energy Commission Power Content Label for 2020.

The average home in the Peninsula Clean Energy/PG&E service area (San Mateo County) uses 395 kWh per month. This is based on a representative 12-month billing history for all customers on the ETOUC rate schedule for PG&E and Peninsula Clean Energy's published rates as of March, 2022.

For specific information about this product, please contact Peninsula Clean Energy, 1-866-966-0110, info@peninsulacleanenergy.com, www.PenCleanEnergy.com.

ECO100 is Green-e® Energy certified, and meets the environmental and consumer-protection standards set forth by the nonprofit Center for Resource Solutions. Learn more at www.green-e.org.
