PENINSULA CLEAN ENERGY AUTHORITY
JPA Board Correspondence

DATE: August 5, 2022
COMMITTEE MEETING DATE: August 11, 2022
SPECIAL NOTICE/HEARING: None
VOTE REQUIRED: Majority Present

TO: Honorable Peninsula Clean Energy Citizens Advisory Committee
FROM: Jan Pepper, Chief Executive Officer, Peninsula Clean Energy Authority
SUBJECT: Resolution to Make Findings Allowing Continued Remote Meetings Under Brown Act

RECOMMENDATION:

Adopt a resolution finding that, as a result of the continuing COVID-19 pandemic state of emergency declared by Governor Newsom, meeting in person would present imminent risks to the health or safety of attendees.

BACKGROUND:

On June 11, 2021, Governor Newsom issued Executive Order N-08-21, which rescinded his prior Executive Order N-29-20 and set a date of October 1, 2021 for public agencies to transition back to public meetings held in full compliance with the Brown Act. The original Executive Order provided that all provisions of the Brown Act that required the physical presence of members or other personnel as a condition of participation or as a quorum for a public meeting were waived for public health reasons. If these waivers fully sunset on October 1, 2021, legislative bodies subject to the Brown Act would have to contend with a sudden return to full compliance with in-person meeting requirements as they existed prior to March 2020, including the requirement for full physical public access to all teleconference locations from which Committee members were participating.

On September 16, 2021, the Governor signed AB 361, a bill that formalizes and modifies the teleconference procedures implemented by California public agencies in response to the Governor's Executive Orders addressing Brown Act compliance during shelter-in-place periods. AB 361 allows a local agency to continue to use teleconferencing under the same basic rules as provided in the Executive Orders when certain circumstances occur or when certain findings have been made and adopted by the local agency. On January 5, 2022, Governor Newsom extended the sunset provision of AB361 and Government Code Section 11133(g) from January 31, 2022 to April 1, 2022 due to the surge in Omicron variant related COVID-19 cases and hospitalizations.

AB 361 requires that, if the state of emergency remains active for more than thirty (30) days, the agency must make findings by majority vote to continue using the bill's exemption to the Brown Act teleconferencing rules. The findings are to the effect that the need for teleconferencing persists due to the nature of the ongoing public health emergency and the social distancing recommendations of local public health officials. **Effectively, this means that agencies, including PCEA, must agendize a Brown Act meeting and make findings regarding the circumstances of the emergency on a thirty (30) day basis. If at least thirty (30) days have transpired since its last meeting, the Boards must vote whether to continue to rely upon the law's provision for teleconference procedures in lieu of in-person meetings.**

AB 361 allows for meetings to be conducted virtually *as long* as there is a gubernatorially-proclaimed public emergency in combination with (1) local health official recommendations for social distancing or (2) adopted findings that meeting in person would present risks to health. AB 361 will now sunset on January 1, 2024.

On September 30, 2021, the Peninsula Clean Energy Citizens Advisory Committee approved a thirty (30) day extension of remote meetings in accordance with AB 361. Out of an abundance of caution given AB 361's narrative that describes each legislative body's responsibility to reauthorize remote meetings, staff and counsel brings this memo and corresponding resolution to the attention of the Citizens Advisory Committee.

On October 14, 2021, the Peninsula Clean Energy Citizens Advisory Committee approved a thirty (30) day extension of remote meetings in accordance with AB 361.

On November 4, 2021 the Peninsula Clean Energy Citizens Advisory Committee approved a thirty (30) day extension of remote meetings in accordance with AB 361.

On December 2, 2021 the Peninsula Clean Energy Citizens Advisory Committee approved a thirty (30) day extension of remote meetings in accordance with AB 361.

On January 13, 2022 the Peninsula Clean Energy Citizens Advisory Committee approved a thirty (30) day extension of remote meetings in accordance with AB 361.

On February 10, 2022 the Peninsula Clean Energy Citizens Advisory Committee approved a thirty (30) day extension of remote meetings in accordance with AB 361.

On March 10, 2022 the Peninsula Clean Energy Citizens Advisory Committee approved a thirty (30) day extension of remote meetings in accordance with AB 361.

On April 14, 2022 the Peninsula Clean Energy Citizens Advisory Committee approved a thirty (30) day extension of remote meetings in accordance with AB 361.

On May 12, 2022 the Peninsula Clean Energy Citizens Advisory Committee approved a thirty (30) day extension of remote meetings in accordance with AB 361.

On June 9, 2022 the Peninsula Clean Energy Citizens Advisory Committee approved a thirty (30) day extension of remote meetings in accordance with AB 361.

On July 14, 2022 the Peninsula Clean Energy Citizens Advisory Committee approved a thirty (30) day extension of remote meetings in accordance with AB 361.

DISCUSSION:

Because of continuing concerns regarding COVID-19 transmission, especially when individuals are grouped together in close quarters, it is recommended that the Peninsula Clean Energy Citizens Advisory Committee avail itself of the provisions of AB 361 allowing continuation of online meetings by adopting findings to the effect that conducting in-person meetings would present risk to the health and safety of attendees. A resolution to that effect and directing staff to agendize the renewal of such findings in the event that thirty (30) days has passed since the Committee's last meeting, is attached hereto.
