**DATE:** May 2, 2023  
**BOARD MEETING DATE:** May 8, 2023  
**SPECIAL NOTICE/HEARING:** None  
**VOTE REQUIRED:** None

**TO:** Honorable Peninsula Clean Energy Authority Executive Committee  
**FROM:** Leslie Brown, Director of Account Services  
**SUBJECT:** PG&E June 1, 2023 Rate Change

**BACKGROUND:**

PG&E will be implementing a rate change on June 1, 2023 with some changes impacting generation rates. The most notable changes will be in the Peak and Off Peak pricing differentials for E-TOU-C. As part of the 2020 GRC Phase 2 proceeding E-TOU-C was introduced with mild Peak to Off Peak differentials, with a scheduled differential increase to be implemented June 1, 2023. Staff will be bringing a request to the full Board later this month to request authorization to implement adjustments to PCE rates following PG&E's new rates to be effective July 1, 2023.

**DISCUSSION:**

As soon as PG&E's Tariffs are published at the end of the month, staff will be working to update our existing rate schedules to account for the generation changes in E-TOU-C along with any other generation adjustments to maintain PCE's net 5% generation rate discount.

**FISCAL IMPACT:**

The June 1, 2023 PG&E rate changes are expected to have a nominal impact on PCE revenues. Most generation rate schedules are not expected to change and adjustments to E-TOU-C differentials are intended to be revenue neutral across PG&E's customer base
